Golden Buzzer Winning Act From America' s Got Talent

We, Siro-a, are a performance group who have done more than 500 performances in 31 countries, attracting over a hundred thousand people.

We were the first Asian to win Golden buzzer in nationally recognized TV program, America's got talent.

Our non-verbal performance, which incorporates dance, mime, comedy and acrobat dancing, entertains people of all ages and nationalities.

Trip Advisors' Travellers Choice

Our show, TECHNO CIRCUS, in Tokyo was awarded Trip advisor's traveler's choice in 2020 which is top 10% of all sightseeing places in the world.

The theme of "TECHNO CIRCUS" is a circus made by everyone.

We take pictures of the audience before the show.

The audience will see themselves projected onto the screen with sometimes the sound of their voice included during the show.

It's very unique and it is a one of a kind performance.
